Research and Consulting for Christian Organizations

Docent Research Group
February 2009-April 2020
Advisor: Dr. Glenn Lucke

*Note: My willingness to provide research or consulting for a church should not be taken to imply that I agree with all of its theological, ecclesial, social, political, or moral convictions.

Selected Research Projects (since 2016):

Highland Park Presbyterian Church, Dallas, TX. Pastor Bryan Dunagan and Pastor Jay Lee: I designed and implemented a research project on the ways large Presbyterian churches organize and deploy their deacon ministries. We conducted interviews at 10 churches and produced a report on best practices. June-July 2016. I supervised and trained Fred Holtzman on this work.

Highland Park Presbyterian Church, Dallas, TX. Pastor Bryan Dunagan and Pastor Jay Lee: I designed and implemented a research project on becoming a multi-site or “parish-model” church. I conducted 11 interviews with multi-site churches (plus found a twelfth interview online) and wrote a report of the findings and advice. I also wrote a draft of a prospectus plan. August 2016.

The Austin Stone Community Church, Austin, TX. Pastor Matt Carter and Pastor Will Bostian: I compiled a list of twenty cities in the United States and Canada that are similar to Austin, Texas, in terms of population size and various cultural characteristics. December 2016-January 2017.

The Village Church, Dallas/Fort Worth, TX. Pastor Matt Chandler: For Matt Chandler’s annual sermon on Sanctity of Human Life Sunday, I compiled statistics about Millennials and abortion in the United States. I also drafted ten substantive views regarding abortion. January 2017.

White Horse Inn, Escondido, CA. Dr. Michael Horton and Mark Green: I researched and wrote monthly briefs about American religion, society, and culture, mostly statistics. This information was used for their podcast and their campaign for Core Christianity. August 2016-June 2017.

The Paradox Church, Fort Worth, TX. Pastor Jim Essian: I compiled various statistics and charts from published reports on singleness and marriage in the United States, including how these statistics have changed over recent decades and differences based on race, sex, and education. I also provided marriage statistics specific to Fort Worth and Tarrant County. October 2017.

The Village Church, Dallas/Fort Worth, TX. Pastor Matt Chandler: I designed, conducted, and analyzed an online survey of The Village’s congregants regarding their views on plans to transition their campuses into autonomous churches, along with other issues. The survey was 20 questions and garnered 1,997 responses. November 2017-January 2018. With Stephanie Chen.

The Church on Rush Creek, Arlington, TX. Pastor Russ Barksdale: I designed and managed a qualitative project on church mergers. My team conducted phone interviews with pastors at ten megachurches that have recently acquired a new campus via a merger, and synthesized the interview data into a written report. Oct. 2017-Jan. 2018. With Kathy Larson and Steve Rustin.

RockPointe Church, Flower Mound, TX. Pastor Ron Holton: I designed, administered, and analyzed an online survey of RockPointe's leaders and congregants on a wide variety of topics. Each respondent received a copy of their responses for later use in the church's discipleship program. The survey included 97 questions and garnered 741 responses. February-April 2018.

River Valley Church, Minneapolis, MN. Pastor Rob Ketterling: I designed and managed a qualitative project about how very large churches assimilate guests and newcomers. The project included phone interviews with six "gigachurches." March-April 2018. With Steve Rustin.

The Village Church, Dallas/Fort Worth, TX. Pastor Matt Chandler: I designed and managed a qualitative interview project about how megachurches handle on-campus classes versus off-campus groups. I analyzed the interview transcripts from ten churches and produced the written report detailing the findings. February-August 2018. Interviews conducted by Glenn Lucke.

Cross Timbers Church, Argyle, TX. Pastor Toby Slough: I wrote, conducted, and analyzed an online survey of Cross Timbers' leaders and congregants about a variety of topics. The survey included 68 questions and garnered 1,051 responses. The deliverables were a 94-page report with commentary and multivariate analyses along with the raw data file. August-November 2018.

The Austin Stone Community Church, Austin, TX. Pastor Matt Carter: I managed and oversaw the quantitative analysis of the church's own internal survey data, gathered annually for five years at the downtown campus. The report weighted the data based on known service attendance and showed trends over time using tables and charts. December 2018. With Laurie DeRose.

Vintage Church, Raleigh, NC. Pastor Tyler Jones: I managed and contributed to a 30-page research brief on cultural, demographic, economic, and religious aspects of the present American South, and how those insights might inform church planting. The report was used for the Acts 29 Carolinas Regional Conference on "the New South." March 2019. With Steve Rustin.

Houston's First Baptist Church, Houston, TX. Pastor Gregg Matte: I wrote, conducted, and analyzed an online survey of the entire church regarding a variety of topics. The survey included 80 questions and garnered 2,177 responses. The deliverables were a 103-page report with commentary and multivariate analyses along with the raw data file. August 2018-July 2019.

White Horse Inn, Escondido, CA. Dr. Michael Horton: I designed, conducted, and analyzed an online survey of the client's subscriber email-list for their subsidiary organization, "Core Christianity." The survey garnered more than 3,100 responses, which helped the client understand the kinds of people "Core Christianity" is currently engaging. February-March 2020.
